SUBJECT: Permission to Use Photographs

Our staff is encouraged to take pictures of the children throughout the school year. The pictures may be used for art projects, a school yearbook, a way to highlight upcoming events, and possibly on our center's web site. The photos are also displayed throughout the halls and classrooms for the children and parents to enjoy. The summer program and the kindergarten class will use photos for a power point presentation at the end of the year.

We will not use any child's photo without prior permission. We will not use their name with the photo for advertising purposes, only within the classroom. Please fill out the lower portion of this paper and return it to the office. If you have any further questions, please stop by the office. As always, thanks for your support and cooperation!

 Yes, you may use my child's photograph.

No, I would prefer if you do not use my child's photograph.
